2 widely distributed EOs (Jackman, eastern ME); G5 but range wide distribution is spotty and species is rarely collected; occurs in cold northern lakes, which are under-surveyed in northern and western ME (Burian has surveyed appropriate habitats elsewhere and not found it)

*The Wildlife Action Plan was developed through a lengthy participatory process with state agencies, targeted conservation partners, and the general public. The Plan is non-regulatory. The species, stressors, and voluntary conservation actions identified in the Plan complement, but do not replace, existing work programs and priorities by state agencies and partners.*
